

## Manual Stacker Truck

The Manual Stacker Truck is a non-polluting and non-powered loading and unloading product. The Manual Stacker Truck has the characteristics of compact structure, flexible transportation, simple operation and small turning radius. It is light in weight and easy to operate. The Manual Stacker Truck is an indispensable auxiliary tool for material handling

### 1. Manual Stacker Truck

The mast of the Manual Stacker Truck is made of cold-formed heavy-duty "C" steel column steel. Stronger, safer, flexible to move, simple to operate, and labor-saving; The high-quality oil cylinder and imported sealing ring greatly improve the sealing performance of the Manual Stacker Truck and reduce the maintenance cost. The Manual Stacker Truck is suitable for production plants, production workshops, warehouses, stations, docks, airports and other places, especially for places with fire-proof and explosion-proof requirements, such as printing workshops, various oil depots, chemical warehouses and other places.

### 2. Specification

Model	JSDE1190	JSDE1191	JSDE1192	JSDEF0071	JSDE1193
Capacity	kg 1000	1500	2000	2000	3000
Load center	mm400	400	400	400	400
Min fork height	mm90	90	90	90	90
Max fork height	mm 1600	1600	1600	2000	1600
Fork length	mm 1000	1000	1000	1000	900
Outer fork width	mm 300-850	320-850	320-850	680	680
Turning radius	mm 1250	1250	1250	1250	1250
Wheelbase of front and rear wheels	mm 1100	1100	1100	1100	1100
Fork length	mm 1380	1380	1380	1380	1400
Fork width	mm 850	850	850	850	850

Fork width	mm2100	2100	2100	2400	2100
Weight	kg 255	265	290	330	365

### 3. Feature And Application

The Manual Stacker Truck is suitable for loading, unloading and stacking of goods in factories, workshops, warehouses, stations, docks, etc. The Manual Stacker Truck is more suitable for places with fire and explosion-proof requirements (such as printing workshops, oil depots, docks, warehouses, etc.). If used in combination with pallets, containers, etc., the Manual Stacker Truck can effectively reduce collisions, scratches and stacking areas of parts, reduce handling workload, and improve handling efficiency. With a small turning radius, the Manual Stacker Truck is suitable for machinery manufacturing, papermaking, printing, handling, logistics and other industries.

### 4. Details

(1) The mast of the Manual Stacker Truck is made of heavy-duty "C" steel column steel, cold-formed. Stronger, safer, flexible to move, easy to operate and labor-saving;

(2) The oil cylinder of the Manual Stacker Truck adopts high-precision grinding tube, imported oil seal, and integrated valve core, which is convenient for disassembly and maintenance; the pressure relief method adopts the foot-step type, the lifting speed is stable, and the safety is greatly improved;

(3) The tiller of the Manual Stacker Truck has a suitable shape and a plastic handle clip, which is particularly comfortable to use. The operator's hands are protected by a sturdy protector. The lifting, lowering and walking control rods can be conveniently operated by hand, and the pallet truck is light, safe and comfortable to use.

(4) Torsion resistant steel structure, the fork of the Manual Stacker Truck is made of high tensile channel steel. The fork tip is made into a round shape to prevent damage to the pallet when it is inserted into the pallet, and the guide wheel allows the fork to be smoothly inserted into the pallet.

## 5. Product Qualification

Shanghai Yiyong Lifting Machinery Co., Ltd. is a certified lifting machinery manufacturers association. This means that we are one of the industry's leading suppliers of lifting equipment. We are reliable and provide excellent value.

Shanghai Yiyong Lifting Machinery Co., Ltd. supplies Manual Stacker Trucks, which are the most popular products in Asia, the United States and Canada. They are beautiful, strong and durable. We promise a 2-year warranty for Manual Stacker Trucks. We really welcome partners from all over the world to join us.

## 6. Deliver, Shipping And Serving

[www.hugoforklift.com](http://www.hugoforklift.com)

The Manual Stacker Trucks is packed in pallets, and each set or two sets of products are packed with a pallet, which can ensure the safety of the products during transportation. We will provide a two-year warranty service for the Manual Stacker Trucks, and provide free zero-year and installation instructions to exclude damages other than man-made and conventional wear and tear to ensure the smooth use of your products

## 7. FAQ

What is the quality?

The Manual Stacker Truck adopts heavy-duty "C" steel gantry, which has a stronger structure. High-quality hydraulic cylinder, safe and labor-saving operation.

Can you customize?

If you have special needs, we can provide you with custom services according to your requirements.

How to pack it?

Our products are packed in pallets, and each product or two are packed in a pallet.

Do you provide after-sales service?

Our Manual Stacker Truck are guaranteed. After you buy products, we will provide parts and maintenance of parts and repairs in addition to people and normal loss.
